FEED:

WEEKLY SUMMARY.....	11
FEEDSTUFFS: WHOLESALE PRICES.....	12-13
OILSEEDS: CRUSHED, MEAL AND OIL PRODUCTION AND ENDING STOCKS, AUGUST 1982.....	14
ALFALFA MEAL: U.S. EXPORTS BUT CUSTOMS DISTRICTS AND COUNTRY OF DESTINATION, JULY 1982.....	15
DISTILLERS' AND BREWERS' DRIED GRAINS: U.S. PRODUCTION AND STOCKS, AUGUST 1982.....	16

HIGHLIGHTS:

Wheat and feed grain markets were mixed during the week. Large world grain stocks and a poor world economy furnished most of the weakness. Late week strength was due to U.S. dollar weakness, falling interest rates, tight farm holding, and rain delayed harvest. Russia's purchase of 1.5 million tons of yellow corn during the week added support.

WHEAT:

Tight farm holding coupled with increased flour sales caused flour mills and exporters to compete for light offerings and most wheat markets were higher. Winter wheat planting made good progress in spite of dry soils over much of the area. Kansas City hard red winter ordinary protein wheat closed up 1 cent per bushel after trading sharply lower at mid period. St. Louis soft red winter wheat advanced 3 cents per bushel and Minneapolis dark northern spring 14 per cent protein wheat was 6 cents higher. Portland soft white wheat sold 5 cents higher per bushel. Minneapolis rye was 10 cents lower per bushel.

CORN:

Yellow corn traded mixed as light buying interest was countered by rain delayed harvest and tight farmer holding in many areas. Kansas City No. 2 yellow corn closed 3 cents higher but light demand kept milling quality white corn unchanged. Minneapolis No. 2 yellow corn sold 6 1/4 cents lower in slow trading.

OATS AND BARLEY:

Minneapolis best malting barley finished unchanged to 5 cents lower and feed grade was 8 cents lower per bushel. Minneapolis heavy oats sold 1 cent lower per bushel.

SORGHUM:

Sorghum traded weak due to lower cost yellow corn and light buying interest. Late week improvement in Mexico's financial arrangements for the last sorghum purchase and an indication further trades would be made turned some markets around. Kansas City No. 2 yellow sorghum closed 3 cents higher per hundred pounds. The Texas High Plains market sold 15-20 cents lower per hundred pounds.

OILSEEDS:

Soybean markets were sharply lower at mid week but turned mostly higher at the close as rain delayed harvest over wide areas. Illinois Processor bids ranged 5 1/2-7 1/2 cents higher per bushel. Farmers offered few beans for sale and processors bid higher as European soybean meal buying expanded late in the week. Minneapolis flaxseed was steady. Duluth sunflower seed sold 10 cents higher per hundred pounds. Minneapolis sunflower seed oil rose 1/2 cent to 22 1/2 cents per pound.

HIGHLIGHTS:

Harvest pressure forced most feedstuffs lower during the week. Export demand was light as a strong U.S. dollar discouraged trade. Domestic demand was light as farmers were busy harvesting. Poor demand for corn primary products restricted supply of corn feeds but light demand kept prices steady to lower. Lower feed grain prices weighed against feedstuff values.

OILSEED MEAL:

Soybean meal sold sharply lower due to harvest pressure and light export and feeder demand. Decatur 44 percent sold \$9.00 lower and 48 percent protein meal was \$10.00 lower per ton. Light supplies kept cottonseed meal markets unchanged.

ANIMAL PROTEINS:

Meat meal trended lower due to lower soybean meal markets. Kansas City meat meal declined \$5.00 and Minneapolis tankage declined \$5.00 per ton. Feather meal markets were steady as production declined in most areas. Poor fish catch in Gulf waters prompted processors to raise asking prices for fish meal by \$10.00 per ton at Gulf and East Coast ports.

CORN FEEDS:

Corn feeds were steady to moderately lower as light export and feeder demand was countered by light production. Demand for primary corn products was light. New crop corn sold at lower prices and this further weakened demand for corn feeds. Yellow hominy feed in Illinois was \$3.00 lower per ton. Corn gluten feed and meal markets were steady to moderately lower. Distillers' dried grains continued in light supply and were mostly steady. Brewers' dried grain supplies tightened as brewers cut production and markets were up \$2.00-7.50 per ton.

WHEAT MILLFEEDS:

Flour mill grind expanded and light feed mixer demand pressured most wheat millfeed markets lower. Buffalo middlings were down \$6.00 per ton. Minneapolis was \$8.00 lower and Kansas City sold \$1.00 lower per ton. At Portland tight supplies forced millrun prices \$1.00 higher but Los Angeles was 50 cents lower per ton.

ALFALFA PRODUCTS:

Alfalfa harvest neared completion in many areas and total production is expected to be lower than last year. Demand remained light and confined mostly to nearby requirements. Most markets reported prices unchanged but processors in the Platte Valley of Nebraska advanced \$1.00 per ton for bulk dehydrated alfalfa pellets. Most reground meal markets and sun-cured alfalfa prices were steady.

MOLASSES:

Feeding cane molasses closed steady. The percentage of molasses used in blends has shown some increase due to more competitive prices. Some pick up in dairy feed usage along with increases in cattle feeding was reported this week. Ample world offerings of cane molasses, price cutting, and low feed grain prices tend to have a weakening effect. It will be early November before any new crop pricing off citrus molasses will be available. Production of citrus through September 15th amounted to 22,921 tons compared to 35,054 tons last year. Beet molasses prices were steady with interest good for new crop contracting in the High Plains and Red River Valley. The new crop in the Red River Valley is reported to be very high sugar and less is going to molasses. Some discounting to volume buyers for prompt shipment was noted.

WEEKLY SUMMARY.....	13
FEEDSTUFFS: WHOLESALE PRICES.....	14-15
FEEDSTUFFS: PRODUCTION, JULY 1982.....	16

HIGHLIGHTS:

Wheat and feed grain markets moved to mostly lower price levels across the nation during the week ended September 30. Demand and movement of grain turned light as farmers were busy planting winter wheat, harvesting spring planted grains, and preparing land. Export demand was only moderate as the strong U.S. dollar and poor world economic conditions continued to limit trading. Inspections for export showed less wheat but more corn and soybeans shipped during the past week as compared with the week before. Australia's drought conditions and reports indicated Russian grain production remains in trouble due to lack of adequate moisture for planting in the winter wheat area and rain hampered grain harvest operations in other areas during the week.

WHEAT:

Lack of volume wheat export sales and large stocks depressed wheat markets. Light farm selling gave a little support. Kansas City hard red winter ordinary protein wheat declined 6 1/2 cents per bushel down 51 1/2 cents per bushel from last season. St. Louis soft red winter wheat 10-12 cents lower and is down 69-70 cents from last year. Minneapolis 14 percent protein dark northern spring wheat declined 8 3/4 cents, down 24 cents per bushel from last season. Portland soft white wheat declined 5 cents, and is 1-6 cents below year ago market.

CORN:

Increasing harvest pressure force' yellow corn markets lower in spite of a pick up in export sales and larger inspections for export. Farmer selling remains light. Minneapolis No. 2 yellow corn 11 1/4 cents lower, down 29 1/4 cents per bushel from last year. The Omaha market dropped 9-10 cents and the Kansas City market fell 8 cents. Kansas City milling quality white corn traded up 2 cents, but fell 21 cents per bushel from the comparable market last year.

OATS AND BARLEY:

Oats and barley markets turned mixed as harvest neared completion. Demand is light but selling pressure is also light. Minneapolis heavy oats down 4-5 cents. Minneapolis best malting barley traded unchanged all week, but, closed down 40-55 cents per bushel below last season. Los Angeles feed barley held steady.

SORGHUM:

Sorghum markets fell under pressure of lower cost corn and Mexico's slow payment of the most recent sorghum purchase. Kansas City market 17 cents lower, down 8 cents per hundred pounds from last season. The Texas High Plains market fell 20-25 cents and is 30-40 cents lower compared with last year.

OILSEEDS:

Oilseed markets declined in spite of a pick up in soybean inspections for export last week. Heavy harvest pressure was given credit for the market weakness in spite of only moderate farmer offerings. Illinois processor point soybean bids declined 13-17 cents, and the market is nearly \$1.00 per bushel under the comparable market last year. Minneapolis flaxseed fell 5 cents and is now \$1.35 per bushel under last season. Duluth sunflower seed 10 cents lower.

HIGHLIGHTS:

Feed grains and feedstuffs traded in a mixed price trend during the week. Demand was light as increasing amounts of fall harvested feed grains became available and many farmers were occupied with winter wheat planting and feed grain harvest. Pastures showed seasonal deterioration but remain better than normal. Export demand is light due to U.S. monetary strength.

OILSEED MEAL:

Soybean meal production was curtailed as a few processors were waiting for new crop supplies to become available. Farmer selling remains light. Light demand resulted from abundant supplies of farm grain and fodder stocks, competition from spreading cotton harvest, and larger fish supplies. Decatur soybean meal declined \$6.00 per ton for 44 percent and 48 percent protein meal. Cottonseed meal was steady in California and the southwest but Memphis was \$15.00 lower per ton for solvent meal as cotton harvest moved into Arkansas. Minneapolis linseed meal traded unchanged. Scarce sunflower seed meal offerings sold \$10.00 higher per ton and sunflower oil was 3/4 cent lower per pound at Minneapolis.

ANIMAL PROTEINS:

Heavier cattle slaughter and light feed mixer usage pressured meat meal markets lower. Fort Worth and Minneapolis declined \$5.00 per ton. Feather meal markets were mostly unchanged as demand improved enough to clean up surplus offerings. East and Gulf port fish meal traded \$5.00 lower per ton due to good catches and light demand. California fish meal traded steady with supplies light.

CORN FEEDS:

Light production and good demand kept corn feeds moving at a steady pace but new crop pressure began to weigh on the market. Chicago corn gluten 60 percent protein meal was \$5.00 lower but the lack of much new crop corn offerings boosted Illinois yellow hominy feed 50 cents per ton. Distillers' dried grains remain in tight supply and traded generally steady. Brewers' dried grain supplies tightened as cooler temperatures cut beer consumption and markets were mostly \$2.00-4.00 per ton higher.

WHEAT MILLFEEDS:

Flour mill grind expanded and light feed mixer demand forced most millfeeds to lower price levels. Buffalo middlings were \$3.00 lower, Kansas City declined \$9.00, and Minneapolis was \$3.00 lower per ton.

ALFALFA PRODUCTS:

Demand remained light for alfalfa but production started winding down due to cooler temperatures, shorter days and lack of enough moisture to support full growth. Processors prices were unchanged to firm. Export demand is light. Alfalfa Center of Nebraska dehydrated alfalfa pellets were steady. Minneapolis reground dehydrated alfalfa meal sold \$2.00 higher per ton. Los Angeles sun-cured alfalfa pellets traded \$2.00 higher per ton. Baled alfalfa hay prices were unchanged in slow trading.

MOLASSES:

Feeding cane molasses markets were mostly steady. The West Coast in a range of \$50.00-54.00 per ton was the only change. With the advent of colder weather, seasonal usage is showing signs of a slight pick up. More supplemental cattle feeding in the southwest and an improved feed manufacture demand reported but movement continues light. Beet molasses reported in Kansas at \$75.00 and Nebraska at \$80.00 per ton, supplies in the Colorado-Wyoming-Montana areas are limited and new crop contracting was active. Old crop supplies in the Red River Valley were pretty well cleaned up and demand was good for new crop.

HIGHLIGHTS:

Oilseed markets turned stronger as rains delayed harvest, farmers held old and new crop supplies tightly, and processors raised bids to attract farmer offerings. Most wheat and feed grains were lower due to lowered export estimates and higher carryover figures. World grain production is little change but the Australian drought continues to cut wheat production there. Contributing some market support was the tight holding policy by farmer, easing interest rates, stronger financial and precious metals, and continued sorghum purchase by Mexico Russia bought 7.6 million tons of Canadian wheat and barley but this failed to contribute much market support.

WHEAT:

In spite of tight farm holding, wheat markets were generally weaker as export trade fell behind expectations and carryover prospects increased. Kansas City hard red winter ordinary protein wheat declined 8 3/4 cents per bushel. Minneapolis dark northern spring 14 percent protein wheat sold 1 3/4 cents lower per bushel. St. Louis red winter wheat was 13 cents lower per bushel. Portland soft white wheat closed unchanged.

CORN:

Yellow corn markets were mostly lower due to larger estimated carryover stocks and spreading harvest pressure. Farmer offerings remain light. Export inspections for last week declined nearly 4 million bushels and the year to date export movement is down about 265 million bushel. Kansas City yellow corn was 3/4 cents lower and St. Louis dropped 3-5 cents per bushel. Kansas City milling quality white corn sold 4 cents lower per bushel.

OATS AND BARLEY:

Oats and barley trading was thin and markets were mixed. Minneapolis heavy oats sold 3 cents higher per bushel. Minneapolis best malting barley held steady as light receipts met seasonally reduced demand. Minneapolis feed barley declined 10 cents per bushel. Los Angeles feed barley sold 5 cents higher following the announcement that Russia had bought Canadian barley and wheat.

SORGHUM:

Sorghum closed steady to slightly lower as the sale of 420,000 tons to Mexico failed to offset all of the feed grain weakness resulting from the increased carryover projection. Kansas City sold 3 cents lower per hundred pounds. Texas High Plains closed unchanged after trading as much as 5 cents lower at mid period.

OILSEEDS:

Oilseed market strength originated in broad support from increased export figures, rain delayed harvest, tight farm holding and processor buying interest. Illinois processor bids ranged 13 3/4-17 1/2 cents higher per bushel. Minneapolis flaxseed sold 10 cents higher per bushel. Duluth sunflower seed was up 5 cents per hundred pounds. Minneapolis sunflower seed oil was 3/4 cent lower per pound.

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS:

Feedstuffs and feed grains sold at higher average price levels during the week. Domestic and export demand showed slight improvement but most strength came from tight holding of grains at the farm level, lower interest rates, stronger financial markets, and swine and pet foods moving at a moderate pace.

OILSEED MEAL:

Soybean meal advanced sharply as tight soybean holding at the farm level curtailed processing in several areas. Decatur prices advanced \$3.50 for 44 percent \$11.50 for 48 percent protein meal. California mills solvent cottonseed meal was unchanged but south and southwest mills advanced \$7.50 per ton. Minneapolis linseed meal was \$3.00 lower per ton. Scarce sunflower meal sold \$2.50 higher and sunflower seed oil sold 1 3/4 cents higher per pound at Minneapolis.

ANIMAL PROTEINS:

Animal protein markets ranged steady to firm with supplies adequate and most strength coming from the higher vegetable protein markets. Fishing season is expected to end this weekend for some Gulf fish meal processors and this added strength at the close of the period. Fort Worth meat meal advanced \$5.00 per ton, the Los Angeles market was unchanged, and Kansas City sold \$5.00 higher per ton. Minneapolis tannage was \$2.50 lower per ton. Gulf and East Coast fish meal advanced \$2.00 per ton while West Coast prices were steady.

CORN FEEDS:

Corn feeds were steady to mostly lower in spite of light farm selling of cash corn, generally higher cash corn markets and curtailed runs at corn processing plants. Abundant onfarm grain supplies and light export demand kept pressure on markets. Chicago corn gluten feed sold \$8.00 lower and Kansas City 60 percent protein corn gluten meal declined \$9.00 while Chicago sold \$10.00 lower per ton. Yellow hominy feed was unchanged with supply and demand light. Distillers' dried grains are generally sold out until November allotment to be announced late week and prices were steady. Brewer' dried grains were mixed in thin trading. St. Louis was unchanged, but, Milwaukee sold \$1.00 lower and Boston sold \$2.00 lower per ton.

WHEAT MILLFEEDS:

In spite of heavy flour grind, wheat millfeed markets were higher as export demand picked up and range cattle feeding showed slight seasonal expansion as pastures began deteriorating. Buffalo midds sold \$9.00 higher, Kansas City advanced \$7.00, Minneapolis sold \$5.00 higher and Los Angeles millrun sold \$3.50 higher per ton.

ALFALFA PRODUCTS:

Alfalfa harvest rapidly approached completion in much of the country and markets for dehydrated alfalfa showed a mostly firm trend. Platte Valley of Nebraska dehydrated alfalfa pellets traded \$1.00 higher and Minneapolis reground meal was up \$3.00 per ton. Los Angeles sun-cured alfalfa pellets declined \$3.00 due to competition from out of state offerings.

MOLASSES:

Feeding cane molasses markets closed steady to \$8.00 lower. Reasons for decline in prices were ample supplies and new crop pressure. Eastern markets reported an improved dairy feed demand in September, and along with killing frosts and deteriorating pastures, demand should to continue to improve. The Florida molasses exchange has called for a tender for 40,000 tons of molasses for nearby delivery date and November-December delivery. New crop grinding to begin in Florida aound the 22nd of October. Beet molasses markets steady in the Colorado, Wyoming and Montana areas. There is real concern for the sugar beet crop in the Red River Valley as rains have hampered harvest efforts and slicing operations are restricted. Ten days of good drying weather is needed as only an estimated 20-30 percent of the crop has been harvested.

HIGHLIGHTS:

Wheat and feed grains were mostly lower during the week.

Most of the weakness resulted from accumulating grain surplus due to the bumper corn and soybean harvest now in progress and the grain stocks in all positions report issued Thursday which showed larger stocks of wheat and feed grains. Rain and snow across much of the upper midwest caused a brief flurry of market support at mid week but forecasts for clearing skies and warm temperatures quickly restored the market down trend. Lack of any large export grain business weakened markets further in spite of an announcement of government programs to promote export trade.

WHEAT:

Wheat sold mostly lower in spite of light farmer selling

and fairly good mill buying interest. Kansas City No. 1 hard red winter ordinary protein wheat traded 6 3/4 cents lower per bushel. St. Louis No. 2 soft red winter wheat sold 5-9 cents higher per bushel. Minneapolis No. 1 dark northern spring 14 percent protein wheat 2 cents lower per bushel. Portland soft white wheat sold 4 cents higher due to tight farmer holding.

CORN:

The large corn crop coupled with larger feed grain

stocks weighed heavily on markets. Omaha No. 2 yellow corn sold 1 cent lower per bushel. Minneapolis sold 2 3/4 cents lower and Kansas City declined 2 3/4 cents per bushel. Kansas City milling quality white corn dropped 5 cents per bushel.

ATS AND BARLEY:

Oats and barley trading turned slow. Barley traded

mostly unchanged and oats showed a firmer trend. Minneapolis heavy oats were 4-5 cents higher per bushel. Minneapolis best malting barley steady. Feed barley markets were steady at Los Angeles and Minneapolis but advanced moderately at Portland and Stockton.

SORGHUM:

Sorghum harvest picked up momentum and heavier stocks

depressed the market. Kansas City No. 2 yellow sorghum declined 4 cents per hundred pounds. Texas High Plains market was down 5-15 cents per hundred weight.

OILSEEDS:

Soybeans declined sharply in spite of light farm selling

as a record harvest moved rapidly into northern areas. Illinois processor prices fell 13 1/4-14 1/4 cents per bushel. Minneapolis flaxseed held steady. Duluth sunflower seed advanced 5 cents per hundred pounds due to rain delayed harvest. Minneapolis sunflower seed oil sold 1/4 cent higher to 22 cents per pound.

SOURCE: Bureau of Census

HIGHLIGHTS:

Feedstuffs traded and averaged lower during the week. Domestic feeder demand was light due to corn, sorghum and soybean harvest. Export demand continues light due to poor world economy. Poultry and swine feeding declined a little but dairy and beef cattle rations moved steadily. Feed grains averaged lower due to harvest pressure.

OILSEED MEAL:

Soybean meal traded mostly lower. The Decatur market declined \$4.00 per ton for 44 percent and for 48 percent protein meal. Solvent cottonseed meal fell \$4.50 at California mills but scatteres showers delayed southern cotton harvest and the cottonseed meal market sold \$5.00-7.50 per ton higher across the South - Southwest sector. Minneapolis linseed meal steady in slow trading. Minneapolis sunflower meal sold \$5.00 lower per ton and sunflower oil eased 1/4 cent lower to 21 1/2 cent per pound.

ANIMAL PROTEINS:

Meat meal prices were mixed and supply-demand situation was in close balnace. Small changes in offerings or demand affected markets slightly. Fort Worth meat meal was \$5.00 lower, Kansas City steady and Los Angeles sold \$5.00 higher per ton. Fish meal was steady on the West Coast to \$3.00 per ton higher at Gulf and East Coast port markets. Demand is light but producers are not pressing sales.

CORN FEEDS:

Gluten feed and meal markets moved steady to lower with light production and lighter demand. Chicago gluten feed sold \$1.00 lower but 60 percent corn gluten meal held steady. Illinois yellow hominy feed offerings scarce and the market sold \$4.00 per ton higher. Kansas City supply tight and \$2.00 higher per ton. Brewers' dried grains demand light, supply light and market mixed. Milwaukee market up \$2.00 but St. L-uwis \$2.00 lower per ton. Distillers' dried grains in extremely light supply but light demand forced prices \$1.00 lower.

WHEAT MILLFEEDS:

Steady flour grind and varying demand patterns caused a mixed price trend in millfeeds markets. Buffalo middlings eased \$1.00 lower, Kansas City fell \$5.00 and Minneapolis sold \$6.00 higher per ton.

ALFALFA PRODUCTS:

Demand remained light for alfalfa products but harvest neared completion and tight stocks position contributed support. Export trade quiet but shipments against old contracts moving well. Alfalfa center of Nebraska dehydrated alfalfa pellets sold \$1.00 higher per ton. Buffalo reground meal advanced \$1.00 per ton. Sun-cured alfalfa markets quiet and mostly unchanged but Los Angeles sun-cured pellets eased \$1.00 lower per ton.

MOLASSES:

Feeding cane molasses markets closed the week steady. Ample supplies, good crop prospects in Louisiana and Florida, and strong competition for available business were the contributing factors to this weeks markets. The Florida molasses exchange has sold 3 cargoes of molasses, one to a U.S. buyer and the other 2 cargoes were awarded to a European purchaser. New crop beet harvesting in Colorado, Montana and moisture have temporarily halted movement. So far yields in the area have been very good. In the Red River valley harvest conditions have improved with rains subsiding the latter part of last week and over the weekend.

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory list 38 services in 22 states that are currently in operation.

ARKANSAS

WEEKLY SUMMARY.....	16
FEEDSTUFFS: WHOLESALE PRICES.....	17-18
OILSEEDS: CRUSHED, MEAL AND OIL PRODUCTION AND ENDING STOCKS, SEPTEMBER 1982.....	19

HIGHLIGHTS:

Soybeans markets were sharply higher during the week. Farmers reduced offerings when prices fell near loan levels and harvest is running behind normal. European soybean meal buying expanded rapidly when traders took advantage of lower cost U.S. soybean meal. Wheat markets turned higher in spite of light export movement and tightend supplies at the ports. Reduced interior supplies idled barges and this caused concern for up river traders who feared an early freeze would curtail barge movement. The Canadian longshoremen's strike threatened to reduce total Canadian exports for this year.

WHEAT:

Hard red winter ordinary protein wheat advanced 8 1/4 cents per bushel at Kansas City with most of the strength coming from reduced farmer offerings and strength from the feed grain complex. Scarce soft red winter wheat offerings traded 22-23 cents higher at St. Louis. Minneapolis No. 1 dark northern spring 14 percent protein wheat sold 6 1/2 cents higher per bushel. Portland soft white wheat sold 2 cents higher per bushel.

CORN:

Yellow corn markets were sharply higher as weather delays slowed harvest and farmers reduced offerings. Minneapolis No. 2 yellow corn sold 5 cents higher per bushel. Kansas City sold 11 1/4 cents higher per bushel. Milling quality white corn at Kansas City was 5 cents higher per bushel to 2.40 and found primary support in the stronger yellow corn market.

OATS AND BARLEY:

The oats trade was slow with prices steady to 4 cents per bushel lower. Minneapolis best malting barley traded steady to 10 cents lower per bushel. Feed barley was mixed with Minneapolis unchanged and California ranging 3 cents lower to 2 cents higher per bushel.

SORGHUM:

A lagging sorghum harvest coupled with a stronger cash corn trade and a new tender for sorghum for Mexico moved sorghum markets higher at Kansas City and California. Kansas City had dropped 7 cents at mid week but moved firmly higher to close up 5 cents. Texas High Plains closed 5-10 cents lower per hundred weight.

OILSEEDS:

Soybean markets were sharply higher as farmers reduced offerings when the market fell to loan levels, rain and snow delayed harvest, and export soybean meal traded expanded. Illinois Processor No. 1 yellow soybeans ranged 12 3/4-16 cents higher per bushel. Minneapolis flaxseed fell 10 cents per bushel. Duluth sunflower seed declined 15 cents per hundred pounds. Minneapolis sunflower oil rose 1 cent per pound.

1/ Starting bids to arrive within 30 days.
2/ Delivered port elevators, prompt 30 day shipment.

HIGHLIGHTS:

Feedstuffs traded narrowly mixed during the week. Domestic feed demand showed little change but there was a slight pick up in export business. Lower cost feed grains displaced some mid protein feedstuffs but light production limited price declines.

OILSEED MEAL:

Soybean meal was under pressure most of the week as strong U.S. currency limited export demand. At the close, European buying expanded sharply and a pick up in soybean sales for export contributed additional strength. Decatur 44 percent meal advanced \$1.50 and 48 percent protein meal sold \$3.50 higher per ton. Cottonseed meal showed little change in light trading and southern mill offerings held steady. California mill prices sold \$1.00 higher per ton. Minneapolis linseed meal was steady all week but light demand gave a weak undertone. Sunflower meal sold \$5.00 lower due to increased harvest pressure and light demand. Sunflower oil was 1/2 cent per pound lower at Minneapolis.

ANIMAL PROTEINS:

Meat meal supplies were moderate but lower cost soybean meal kept pressure on prices and most markets were unchanged. Fort Worth, however, was up \$5.00 per ton. Tankage markets were unchanged. Feather meal markets responded to light supplies and sold \$5.00 per ton higher from Northern Arkansas through the upper midwest. Fish meal markets were firm in the Gulf and East Coast areas where fishing was practically complete for the season. Gulf prices were \$2.50 higher and East Coast prices were \$5.00 higher per ton for Manhadden meal. West Coast market was strong except a weak undertone for tuna meal because of heavy supplies.

CORN FEEDS:

Corn feed production is seasonally light but lower cost feed grains and soybean meal caused some substitution for mid protein feedstuffs and this tended to regulate market prices for corn feeds. Increased export trading at the close gave market strength. Illinois yellow hominy feed was steady while Kansas City sold \$2.00 higher per ton. Corn gluten feed advanced \$4.00 at Chicago and was up \$5.00 at Kansas City. Corn gluten 60 percent protein meal was steady at Chicago but under pressure at other points due to soybean meal competition. Brewers' and distillers' dried grains are in very short supply but light usage kept prices unchanged.

WHEAT MILLFEEDS:

Flour mill grind varied from a little less run time at Buffalo and Kansas City to heavier at Minneapolis. Feed demand was moderate and prices were mixed. Buffalo midds sold \$1.00 higher, Minneapolis declined \$3.00. St. Louis was \$7.00 lower and Los Angeles millrun was \$2.50 higher per ton.

ALFALFA PRODUCTS:

The production season ended over large areas of the country and markets were steady to firm. Platte Valley of Nebraska dehydrated alfalfa pellets were \$1.00 higher per ton. Reground meal markets were \$1.00 higher at Kansas City and up \$2.00 at Minneapolis. Other dehydrated alfalfa and sun-cured alfalfa pellet markets were steady. Platte Valley of Nebraska baled alfalfa hay traded steady to \$5.00 higher per ton.

MOLASSES:

Feeding cane molasses markets were steady to \$5.00 lower. The sugarcane harvest in Florida should be in full swing in a week to 10 Days with a large crop forecast. Beet molasses markets were steady for the week with new crop harvest progressing in most areas. Supplies of new crop citrus molasses not expected until the first week in November. Hawaiiin molasses production for the month of August totaled 5,829,561 gallons.

HIGHLIGHTS:

Wheat and feed grain markets were mostly higher for the election week. Market support came from light farmer selling as spring planted grains moved rapidly into storage and large quantities moved into government storage programs. Additional strength originated in expanded weekly inspections for export, strong financial markets, and an aggressive export program.

WHEAT:

Wheat closed in a mixed price trend as flour mill demand eased when export flour contracts were filled. Tight farm holding kept offerings light and exporters had to compete with mills for supplies. Kansas City hard red winter wheat was up 10 1/2 cents per bushel. Minneapolis dark northern spring 14 percent protein wheat was 2 1/4 cents lower per bushel. Portland soft white wheat sold 1 cent higher per bushel.

CORN:

Yellow corn markets were higher as harvest neared completion and farmers showed little inclination to sell at current price levels. Omaha No.2 yellow corn was up 3 - 4 cents per bushel. Minneapolis advanced 6 1/4 - 7 1/4 cents per bushel. Kansas City milling quality white corn sold 9 cents higher per bushel.

OATS AND BARLEY:

Markets were mixed for barley but oats showed a much stronger trend. Minneapolis No. 2 heavy oats advanced 9 - 11 cents per bushel. Minneapolis best malting barley was unchanged 5 cents higher and feed grade unchanged. Portland barley was steady and California was steady to 2 cents per bushel lower.

SORGHUM:

Tight farmer holding and expanded sorghum trade to Mexico strengthened sorghum markets in spite of light feeder demand. Kansas City sold 11 cents higher per hundred weight. Texas High Plains advanced 5 - 15 cents per hundred pounds.

SOYBEANS:

Soybean markets firmed as harvest rapidly approached completion; farmers took a tight holding pattern; and improved export demand for beans, meal, and oil caused competition for light offerings. Illinois Processor bids were 20 - 20 1/2 cents higher per bushel. Minneapolis flaxseed held steady. Duluth sunflower seed declined 10 cents per hundred weight as harvest pressure weighed on demand. Minneapolis sunflower oil was 1 cent lower per pound with demand to domestic and exporters improving at the lower price level.

HIGHLIGHTS:

Feedstuffs and feed grains were mostly higher during the week. Harvest neared completion in most areas for spring planted crops and farmers sold little grain. Export demand showed some expansion and this contributed support.

OILSEED MEAL:

Soybean meal was sharply higher as farmers held soybeans tightly, some crushing plants took down time, and export demand improved. Decatur meal sold \$2.50 - 3.00 higher but most other markets advanced around \$7.50 per ton. Cottonseed meal markets showed little movement due to tight supply but Memphis sold \$3.50 higher per ton. Minneapolis linseed meal held steady with supply tight due to plants switching to sunflower seed crush. Sunflower seed meal held steady but oil sold 1 1/2 cents higher per pound at Minneapolis.

ANIMAL PROTEINS:

Meat meal supply and demand remains in close balance and advancing soybean meal prices contributed support. Prices were mostly higher with Fort Worth up \$12.50, Kansas City sold \$5.00 higher and the Minneapolis tankage was up \$7.50 per ton. Fish meal advanced \$5.00 at East Coast ports, \$7.50 at Gulf Ports and California was steady. Feather meal was generally \$5.00 per ton higher from northern Arkansas through the Minneapolis area.

CORN FEEDS:

Corn feed production was seasonally light but demand was also light and price changes were mixed. Illinois yellow hominy feed advanced \$5.00 per ton. Corn gluten feed was \$3.00 lower at Kansas City and Chicago 60 percent protein corn gluten meal traded \$5.00 lower per ton due to light usage. Brewers' dried grains declined \$2.00 - 6.50 per ton as reduced formulation caused traders to lower prices in an effort to keep supplies moving. Distillers' dried grains remain in tight supply but demand was light and markets were mostly unchanged except at Buffalo where prices were \$1.00 higher per ton.

WHEAT MILLFEEDS:

Flour grind was lighter this week and declining pasturage improved demand for beef cattle feeds. Wheat middlings showed a general advance ranging from \$1.00 up at Portland for millrun to \$7.00 higher for middlings at Kansas City. Buffalo midds were up \$2.00 and Minneapolis was up \$4.00 per ton.

ALFALFA PRODUCTS:

Alfalfa markets were mostly unchanged in light trading with supplies tight, demand was light but processing plants were holding remaining stocks due to the short production this year. Platte Valley Nebraska bulk dehydrated alfalfa pellets were \$1.00 higher per ton. Los Angeles sun-cured alfalfa pellets were \$2.50 higher but other reporting markets showed little activity at steady prices. Baled alfalfa hay supplies tightened as dairies and feedlots started covering winter requirements.

MOLASSES:

Feeding molasses markets were steady during the week. Demand remains light to moderate and registering some seasonal pick-up. Up-river movement from the Gulf was good, however, rail strikes have created delays of up to 3 weeks. All the sugarcane mills are going strong in Louisiana after a late start due to wet weather. The crop may be as good as last year's which was a record crop. Also anticipating a large crop. Grinding in Florida is expected to get underway this week and they are also anticipating a large crop. Beet harvest is progressing well in the High Plains areas except for Nebraska which is running slightly behind schedule. Red River Valley beet molasses was steady with movement slow but suppliers are busy working on previous bookings. Harvest in the Valley is 95% completed and sugar content around 15 percent is considered good due to the delays and heavy rains earlier in the season.

FEEDSTUFFS: WHOLESALE PRICES.....	19-20
FEEDSTUFFS: WHOLESALE PRICES, OCTOBER 1982.....	21-22
FEEDSTUFFS: U.S. EXPORTS, SEPTEMBER 1982.....	23
FEEDSTUFFS: U.S. IMPORTS, SEPTEMBER 1982.....	23

HIGHLIGHTS:

Tight holding at the farm level forced wheat and feed grain prices higher during the week. Export inspections picked up for wheat and corn but fell sharply for soybeans. World crop information was little changed except for an upward revision in Russia's total wheat production. Rains delayed U.S. corn, sorghum, and soybean harvest but most areas neared completion by mid week.

WHEAT:

Farmers held wheat stocks and exporters competed with flour mills for the scarce offerings. Kansas City No. 1 hard red winter ordinary protein wheat advanced 4 3/4 cents per bushel. St. Louis soft red winter wheat sold 5 cents higher per bushel. Minneapolis dark northern spring 14 percent protein wheat was up 8 3/4 cents per bushel. Portland soft white wheat traded 7 cents higher per bushel.

CORN:

Yellow corn prospective production was revised slightly higher but tight farmer holding continued to force bids higher. Kansas City No. 2 yellow corn advanced 10 cents per bushel. Minneapolis advanced 12-13 cents per bushel. Kansas City milling quality white corn was sharply higher and sold 23 cents per bushel higher as farm offerings are very light.

OATS AND BARLEY:

Thin trade was the main characteristic of oats and barley as demand was only fair and offerings were light. Minneapolis heavy oats closed mixed, 3 cents lower to 4 cents higher per bushel. Minneapolis best malting barley advanced 5 cents due to light offerings.

SORGHUM:

Sorghum markets were sharply higher as increased export sales, light farm offerings, and a strong corn market combined to support sorghum prices. Kansas City sold up 23 cents per hundred pounds. Los Angeles sold 21 cents higher per hundred weight.

SOYBEANS:

Although inspected soybeans for export dropped sharply last week, the combined strength of increased bean, oil, and meal sales to Europe; tight farm holding; and increased domestic usage forced cash soybean markets sharply higher. Illinois processing prices were 13 cents higher per bushel. Minneapolis flaxseed traded 5 cents higher per bushel as crushers needed seed to fill expanded linseed oil sales. Duluth sunflower seed traded 25 cents higher per hundred pounds. Increased domestic and export buying interest furnished the sunflower seed market strength.

HIGHLIGHTS:

Feed grains were mostly higher during the week. Feedstuffs tended to follow grain markets higher. Demand improved to export and domestic users. Tight farmer holding kept feed grain buyers competing for offerings. Farmers were winding up grain harvest and started stocking feedstuffs for the first time this season. Southwest pastures remain dry and furnish little grazing. Wheat pasturage limited by poor stands and lack of growth on dry lands. Irrigated wheat pastures range from fair to good.

OILSEEDS:

Soybean meal was sharply higher, supported by a surge of export trade, tight farmer holding of soybeans and increased domestic feed usage. Higher animal protein markets added support. Decatur 44 percent soybean meal sold \$14.00 higher (compared with Monday of last week) and 48 percent protein meal was \$12.00 higher per ton. California solvent cottonseed meal was \$1.00 lower but scarce southern mill offerings were mostly \$10.00 per ton higher. Minneapolis linseed meal was unchanged in thin trading. Sunflower meal advanced \$5.00 per ton but sunflower oil fell 3/4 cent per pound at Minneapolis.

ANIMAL PROTEINS:

Tight supply and good usage moved animal protein feeds strongly higher. Kansas City meat meal advanced \$22.50, Minneapolis tankage traded \$17.50 higher per ton and fish meal sold \$5.00 higher per ton at Gulf and East Port markets. California fish meal unchanged in light trade. Feather meal is scarce and up \$5.00-15.00 per ton at most markets.

CORN FEEDS:

Corn feed markets were supported by light production and stronger cash corn markets. Demand weakened at the higher price levels. Illinois yellow hominy feed sold \$1.00 higher and Kansas City was up \$3.00 per ton. Corn gluten feed steady at Chicago and up \$3.00 at Kansas City. Corn gluten 60 percent protein meal was supported by heavier exports and expanded broiler feeding and traded \$10.00 per ton higher. Distillers' dried grains were mixed as resale lots moved at lower prices. Brewers' dried grains very tight and \$1.00-4.00 per ton higher.

WHEAT MILLFEEDS:

Flour grind was light as export flour business lagged and holidays cut further into production. This tightened wheat millfeeds supplies and markets were mostly higher. Buffalo middlings traded \$7.00 higher, Kansas City advanced \$15.00 and Minneapolis sold \$12.00 higher per ton. Los Angeles millrun up 50 cents per ton.

ALFALFA PRODUCTS:

Tight processor holding pushed dehydrated alfalfa mostly \$3.00 per ton higher. Platte Valley of Nebraska dehydrated pellets traded up \$3.00 and several reground meal markets were \$3.00 per ton higher. Sun-cured alfalfa production and trade remains light at mostly unchanged prices but Los Angeles sun-cured alfalfa pellets advanced 50 cents per ton.

MOLASSES:

Feeding cane molasses markets were steady. Feedlot business in Texas much improved with cattle numbers and consumption up. New crop harvesting in Louisiana going full speed ahead with a better than average crop, but not equal to last year's bumper crop. New crop grinding progressing at a steady pace in Florida. Beet molasses markets steady with harvest in the Hi Plains virtually complete.

ANNUAL FEATURES

FEEDSTUFFS: WHOLESALE PRICES, 1980/81 - 1981/82.....	15-23
--	-------

HIGHLIGHTS:

Wheat and feed grains traded mixed but mostly higher during the week. Most of the strength originated from tight farmer holding, increased export sales of corn to Russia and soybeans and meal to Europe. Tempering demand was reports of upward revisions in World Grain Production and lowered prospective export trade.

WHEAT:

Wheat traded mixed as tight farmer holding in the midwest forced bids higher while the approach of the end of barge and lake vessel movement from the Duluth area depressed markets. Kansas City No. 1 hard red winter ordinary protein wheat rose 7 cents per bushel. St. Louis soft red winter wheat advanced 8-9 per bushel. Minneapolis No. 1 dark northern spring 14 percent protein wheat fell 8 cents per bushel. Portland soft white wheat was up 2 cents per bushel.

CORN:

Cash corn markets benefited from tight farm holding, near completion of harvest and an additional sale of 1,350,000 tons of corn to Russia. Kansas City No. 2 yellow corn sold 7 1/2 cents higher per bushel. Minneapolis yellow corn traded 4 1/4 cents higher per bushel. Kansas City milling quality white corn sold 8 cents higher per bushel.

OATS AND BARLEY:

Oats and barley trade was thin and prices were mixed. Minneapolis heavy oats advanced 4-10 cents per bushel. Mill demand improved as offerings turned light. Minneapolis best malting barley traded steady to 15 cents higher per bushel. Los Angeles feed barley sold 5 cents higher per bushel.

SORGHUM:

Light farmer offerings and good demand forced sorghum markets higher. Kansas City was up 13 cents per hundred pounds. The Texas High Plains market advanced 45 cents per hundred weight.

OILSEEDS:

Oilseeds were mixed as farmers held soybeans and Europe increased buying of U.S. beans and meal. The approach of water shipment season in northern areas depressed the upper midwest sunflower seed market. Illinois processor soybean bids sold 7 3/4 cents higher per bushel. Minneapolis flaxseed found mid week market strength and closed unchanged. Duluth sunflower seed fell 10 cents per hundred pounds. Duluth shippers have filled needs for this shipping season. Minneapolis sunflower seed oil was 1/4 cent lower per pound.

HIGHLIGHTS:

Feed grains were higher across the nation during the week. Feedstuffs were in a mixed price trend and averaged lower. Farmers held grain tightly and this furnished most of the market strength. Moderate temperatures cut animal feed requirements and stubble fields furnished a large part of animal feed requirements. Slow dressed meat trade cut beef slaughter and this tightened meat meal supplies.

OILSEEDS:

Soybean meal traded mostly lower in spite of reduced crush as domestic and export feeder demand was light. Decatur 44 percent protein meal was \$2.50 lower per ton. California solvent cottonseed meal advanced \$6.50 per ton but southern mills were steady in a thin market with demand and production light. Minneapolis linseed meal trade slow at a steady market. Sunflower seed meal was unchanged but sunflower oil eased 1/4 cent lower per pound at Minneapolis.

ANIMAL PROTEINS:

Reduced beef cattle slaughter tightened meat meal supplies and market were mostly higher in spite of a decline in usage. Los Angeles meat meal sold \$10.00 higher and Minneapolis advanced \$5.00 per ton. Heavy hog slaughter forced Minneapolis tankage \$7.50 lower per ton. Gulf and East Coast fish meal advanced \$5.00 with offerings and demand light. West Coast fish meal markets were unchanged.

CORN FEEDS:

Corn feed markets were supported by light production and higher cash corn prices. Chicago corn gluten feed was up \$3.00 and 60 percent protein gluten meal sold \$5.00 higher per ton. Kansas City yellow hominy feed up \$1.00 and Illinois points \$2.00 higher. Distillers' dried grains were unchanged with offerings and demand well balanced. Brewers' dried grain offerings were extremely light but demand was light as users reduced amount going into formulas. Milwaukee brewers' dried grains steady, Boston and St. Louis markets up \$1.00 per ton.

WHEAT MILLFEEDS:

Wheat millfeeds production was light as flour millrun was reduced by lack of new export flour business, but reduced feed mixer demand kept prices mostly steady but, in a mixed trend. Los Angeles millrun sold \$7.00 higher and Buffalo midds were \$2.00 lower per ton. Minneapolis midds were steady and Kansas City was up \$1.00 per ton.

ALFALFA PRODUCTS:

Alfalfa trade was slow and markets were mixed. Alfalfa center of Nebraska dehydrated alfalfa pellets tightly held and up \$1.00 per ton. Buffalo reground dehydrated alfalfa meal up \$2.00 per ton. Los Angeles sun-cured alfalfa pellets \$5.00 lower per ton. Baled alfalfa hay trade was slow at steady prices.

MOLASSES:

Feeding cane molasses closed steady. Eastern demand light due to continued fair weather while usage is expected to increase in Minnesota following heavy snows and colder temperatures in that area. Increased numbers of cattle on feed over same period last year has generated molasses sales in Texas. All sugarcane factories but one are running in Florida. Old crop supplies are cleaned up and new crop is now being offered. Ideal weather has aided harvesting of Louisiana cane crop. Beet molasses markets were steady in the high Plains and Red River Valley. Demand was light with reasonably good movement.

WEEKLY SUMMARY.....	11
FEEDSTUFFS: WHOLESALE PRICES.....	12-13
SOYBEAN OIL-CAKE AND MEAL: U.S. EXPORTS BY COUNTRY OF DESTINATION, SEPTEMBER 1982.....	14
COTTONSEED AND LINSEED OIL-CAKE AND MEAL: U.S. EXPORTS BY COUNTRY OF DESTINATION, SEPTEMBER 1982.....	15
DISTILLERS' AND BREWERS' DRIED GRAINS: U.S. PRODUCTION AND STOCKS, OCTOBER 1982.....	16

HIGHLIGHTS:

Market found broad based support at the end of the week as export wheat trade expanded and precious metals and financial markets moved higher. Light farmer selling added support. World conditions changed. little except indonesia reported drought was delaying planting of next year's grain crops. Traders were encouraged by the recent visit of Russian envoys who found U.S. wheat acceptable for their usage.

WHEAT:

Export and miller competition for moderate farm offerings raised Kansas City hard red winter ordinary protein wheat values 18 cents. St. Louis soft red winter moved 16-17 cents higher. Minneapolis dark northern spring 14 percent protein wheat rose 5 1/2 cents. Portland soft white advanced 15 cents.

CORN:

Yellow corn markets were mostly higher as farm selling fell short of needs. Omaha No. 2 yellow corn traded 2-3 cents higher. Minneapolis excepted the general trend to close 1/2 cent lower. Kansas City milling quality white corn milling quality white corn trade turned dull and the rail car market held barley steady.

OATS AND BARLEY:

Oats market showed little activity and closed in a mixed trend. Minneapolis heavy oats closed steady to 5 cents lower. Minneapolis best malting barley fell 5-15 cents. Minneapolis feed barley held steady but the Portland market advanced 3-4 cents.

SORGHUM:

Sorghum trade was slow except for a good export demand as most domestic feeders are using corn. The Kansas City yellow sorghum market rose 2 cents.

OILSEEDS:

Soybean markets moved lower at processing plants have covered recent export business and domestic feeder demand is slow. Illinois processor plant bids fell 9 1/2-9 3/4 cents. Minneapolis flaxseed held steady in light trade as processors are crushing sunflower seed. Duluth sunflower seed advanced 20 cents.

HIGHLIGHTS:

Feedstuffs and feed grains were mostly higher during the week. Demand showed only slight improvement and most of the market strength originated in lighter offerings. Farmer selling of grains remained light until the close of the period when fair selling occurred.

OILSEEDS:

Soybean meal was higher due to advancing cash soybean markets and light crush. Much of the processor run is tied to recent export sales to Europe. Decatur 44 percent protein meal advanced \$4.00 and 48 percent sold \$3.00 higher per ton. Solvent cottonseed meal supply is tight and the California market was up \$5.00 per ton. Southwestern mills sold \$2.50-7.50 per ton higher. Minneapolis linseed meal is in tight supply and sold \$3.00 higher per ton. Sunflower seed meal held steady at Minneapolis for immediate shipment. Sunflower seed oil was 1/4 cent lower per pound.

ANIMAL PROTEINS:

Meat meal supplies were tight and markets were mostly higher. Los Angeles showed the greatest advance, selling \$10.00 higher per ton. Kansas City sold \$2.00 higher per ton. Minneapolis tarrage traded \$5.00 higher per ton and feather meal markets were mostly \$5.00-15.00 per ton higher. Fish meal traded steady on the West Coast but Gulf and East Coast markets advanced \$5.00 per ton.

CORN FEEDS:

Yellow hominy markets were generally higher due to light production and moderate demand. Illinois points sold \$2.00 higher and Kansas City was up \$4.00 per ton. Corn gluten feed held mostly steady and corn gluten 60 percent protein meal traded steady to \$5.00 per ton higher as poultry feeders increased formulation. Distillers' and Brewers' dried grains remain in light production and were mostly unchanged.

WHEAT MILLFEEDS:

Millfeed prices were directly affected by mill run time as demand held at moderate levels. Buffalo expanded grind and this forced the middlings market \$9.00 lower per ton. Los Angeles millrun sold \$4.50 higher and Kansas City midds sold \$1.00 higher per ton. Minneapolis midds steady.

ALFALFA PRODUCTS:

Alfalfa markets were steady to slightly higher with most of the market support coming from tightening supply. Platte Valley of Nebraska dehydrated alfalfa pellets sold \$1.00 higher per ton. Los Angeles sun-cured alfalfa meal was \$2.00 higher per ton.

MOLASSES:

Feeding cane molasses closed steady with light to moderate demand, depending on the area and prevailing weather conditions. Drought conditions and larger numbers of cattle on feed have increase molasses usage in Texas. Demand continues good with movement above last year at this time. New crop contracting of cane molasses in Florida very good with continued favorable weather and grinding progressing at a steady pace. Crop prospects appear exceptionally good. Beet molasses steady in the High Plains and Red River Valley. New crop in the High Plains is mostly contracted and molasses was moving out on a timely basis.

HIGHLIGHTS:

Wheat and feed grains traded mostly lower during the week. Moderate to heavy rains fell across the winter wheat area and mild temperatures helped to improve the establishment of wheat plants which will increase winter survival rate. Export shipments of wheat and grains fell sharply from the previous week. World economic conditions continued to show little improvement and the lower U.S. interest rates have failed to stimulate business. Contributing support was the India purchase of around 1 1/2 million tons of hard winter wheat and Egypt's purchase of flour and wheat under the PL-480 program. Closure of the upper river system and the scheduled December 5 closing of the lakes shipping weakened demand.

WHEAT:

India's purchase of hard red winter wheat provided limited support, but timely rains and mild temperatures over much of the hard red winter wheat area improved 1983 crop prospects. Kansas City hard red winter ordinary protein wheat declined 7 3/4 cents per bushel. St. Louis soft red winter wheat was 23 cents lower per bushel. Minneapolis No. 1 dark northern spring 14 percent protein wheat sold 13 cents lower per bushel. Portland soft white wheat was down 16 cents per bushel.

CORN:

Yellow corn markets were generally 8-11 cents per bushel lower as export loadings fell sharply. Kansas City was 11 cents lower per bushel. Minneapolis declined 10 cents per bushel. Omaha dropped 8-9 cents lower per bushel. Kansas City milling quality white corn traded 5 cents higher in thin trading as lack of farmer offerings prompted mills to raise bids to pull corn off farms.

OATS AND BARLEY:

Oat markets were mixed in light trading. Minneapolis finished 5 cents lower to 3 cents higher per bushel. Minneapolis best malting barley traded unchanged to 10 cents lower per bushel. Brewery volume was curtailed by strike shortened sports season. Feed barley markets were mixed with Minneapolis unchanged. Los Angeles was up 7-8 cents per bushel.

SORGHUM:

Yellow sorghum trade was extremely thin with domestic and export demand light. Kansas City sorghum fell 15 cents per hundred weight. The Texas High Plains market closed steady to 5 cents lower per hundred pounds.

OILSEEDS:

Soybeans found support at mid week from increased export business but at the close domestic and export business slowed and markets were lower. Illinois processor prices fell 2 3/4 - 3 1/2 cents per bushel. Minneapolis flaxseed fell 5 cents per bushel. Sunflower seed dropped 20 cents per hundred pounds at Duluth. Closing of the upper Mississippi River and the nearby closure of lake shipping added pressure to oilseed markets. Minneapolis sunflower seed oil advanced 3/4 cent per pound.

REPORT

WORLD 1982 hop production is estimated at 127,466 tons, an increase of 6 percent from last year. A record harvest enabled West Germany to regain its top position in world production from the United States, which was No. 1 in 1980 and 1981. Larger production in West Germany, the United Kingdom, Yugoslavia, German Democratic Republic, Australia, France, Belgium and Japan more than offset lower output in the United States, Poland and Spain.

An 8-percent drop in area, combined with crop losses occurring from an August storm, lowered earlier estimates for the U.S. crop. Drought in Spain, particularly in non-irrigated hop areas, caused production to fall below the government's targeted production level for the second year in a row.

Hop yields in France were unusually high (22 percent above 1981), allowing for a 20-percent larger harvest. Larger yields also occurred in West Germany, the United States, Czechoslovakia and the United Kingdom. The alpha-acid content of hops harvested in West Germany is reportedly below average, and the crop quality, based on alpha-acid content, was also lower in the United Kingdom and Spain.

World hop area, estimated at 83,917 hectares, is up marginally from last year. Lower spot prices reduced acreage expansion in several countries. Japan is continuing the trend of reducing its hop area due to the availability of cheaper imports. Little, if any, area expansion is anticipated next year because of generally depressed prices and less forward contracting activity.

Hop production data are as follows in tons:

Country	1980	1981	1982
West Germany.....	26,892	33,704	40,403
United States.....	34,270	35,900	35,840
Czechoslovakia....	10,036	12,885	11,500
United Kingdom....	9,749	9,339	10,200
Yugoslavia.....	4,731	5,202	5,280
Others.....	21,910	23,430	24,243
World total.....	107,588	120,460	127,466

HIGHLIGHTS:

Feed grains were mixed with corn trading mostly lower during the week. Feedstuffs also traded in a mixed price trend as moderating weather was countered by a slight expansion in export trading. Turkey feeding continued to seasonally decrease but broiler numbers increased. Dairy and swine feeds moved well. Beef cattle feeding showed a sharp down-turn as farmers utilized stubble fields and pastures when weather moderated.

OILSEEDS:

Soybean meal was mostly lower in spite of higher prices at Decatur. Interior feeding areas had a surplus of feedstuffs on hand and traders cut prices to encourage movement. Decatur 44 percent protein meal was up 50 cents and 48 percent sold \$1.50 higher per ton. Other markets were unchanged to \$2.50 per ton lower at the close. Cottonseed meal was little changed in thin trading. California solvent meal markets were \$1.50 lower per ton, while southern mills held steady. Minneapolis linseed meal was steady in extremely thin trading. Sunflower seed meal declined \$10.00 per ton due to limited demand and heavy crush. Sunflower oil was up 2 3/4 cents per pound at Minneapolis.

ANIMAL PROTEINS:

Lighter supply was the main feature in animal protein feeds. Fish meal supplies dwindled as little catch will occur until spring fishing starts. Meat meal supplies were reduced by Holiday shortened slaughter rates. Vegetable proteins displaced some animal proteins in formula feeds. Fort Worth meat meal advanced \$9.00, Kansas City was \$4.50 lower and Minneapolis declined \$5.00 lower per ton. Feather meal was in light supply and mostly \$5.00-10.00 per ton higher but supplies were beginning to pick up at the end of the week. East and gulf coast fish meal was \$10.00 higher per ton.

CORN FEEDS:

A declining cash corn market was offset by light supplies of corn feeds as slow production kept offerings light. Gluten feed was steady to \$8.00 per ton higher. Gluten meal 60 percent protein was unchanged to up \$20.00 per ton at Chicago. Yellow hominy feed traded narrowly mixed in light trading. Illinois prices were up \$1.00 per ton but Kansas City was unchanged. Distillers' dried grains production expanded and pressured the Buffalo market \$3.00 lower per ton but, other markets were unchanged. Scarce brewers' dried grains traded unchanged to \$3.00 per ton higher.

WHEAT MILLFEEDS:

New export flour contracts at the end of the period coupled with open weather cut demand for wheat millfeeds and pressured prices mostly lower. Buffalo middlings held steady. Minneapolis sold \$2.00 lower and Kansas City declined \$12.00 per ton.

ALFALFA PRODUCTS:

Alfalfa traded mostly steady with volume light due to open weather. Platte Valley of Nebraska dehydrated alfalfa pellets traded unchanged. Platte Valley Nebraska baled alfalfa hay traded unchanged to \$5.00 higher per ton. Most reground dehydrated alfalfa meal and sun-cured alfalfa pellet markets were unchanged.

MOLASSES:

Feeding cane molasses markets closed steady. Demand was light to moderate with mild weather limiting feed requirements, except in Texas, where demand remained good. Cane molasses harvest moved ahead at a steady pace with favorable weather. Demand was moderate, limited mainly to nearby requirements. Beet molasses prices were steady in the High Plains and Red River Valley as the majority of supply moved out on contracts with very limited spot business.

HIGHLIGHTS:

Soybean markets advanced while wheat and feed grains traded in mixed price trends. Flooding along the major river systems to gulf ports restricted grain and soybean movement in much of the midwestern area. Export business increased but grain export totals for the season continued to fall short of last season. Rain and snow fell over much of the dry winter wheat area and this should improve crop prospects.

WHEAT:

Market strength was generated by increased export wheat and flour trading. Prices were pressured by large stocks, poor world economy, and precipitation over much of the dry winter wheat areas. Flour mills competed with exporters for light farmer offerings. Kansas City No. 1 hard red winter ordinary protein wheat sold 2 1/2 cents higher per bushel. St. Louis No. 2 red winter wheat was 1 cent lower per bushel as barge loadings were curtailed by flood. Minneapolis No. 1 dark northern spring 14 percent protein wheat declined 1 cent per bushel. The upper Mississippi River is closed to navigation for the season and the Duluth - Superior Lake shipping season is scheduled to end December 15. Portland soft white wheat sold 2 cents higher per bushel. A flurry of new export sales contributed support.

CORN:

Corn trading was hampered by floods in the midwest and farmers sold corn sparingly. Yellow corn advanced 3-6 cents with Omaha up 3-4 cents, Kansas City 4 cents higher, and Minneapolis up 6 cents per bushel. Yellow corn prices are now over the market at the comparable time last season. Milling quality white corn was higher in spite of light trading as farmers held stocks. Kansas City white corn traded 15 cents higher per bushel.

OATS AND BARLEY:

Oats trade was light as farmers held stocks. Minneapolis was steady to 5 cents higher. Minneapolis best malting barley traded 5 cents lower under pressure of moderate offerings and seasonally light demand. Feed barley markets were little changed in light trading.

SORGHUM:

Sorghum traded mostly to alcohol distilling plants and to ports for export. Farmer selling remains light and prices were steady to sharply higher. Kansas City market was up 18 cents per hundred pounds. Texas High Plains was steady for the week.

OILSEEDS:

Soybean markets advanced as flooding restricted movement and processor demand improved due to expanded export trade to Mexico and Europe. Illinois No. 1 yellow soybeans traded 11 1/2 - 12 cents higher per bushel. Minneapolis flaxseed was 5 cents per bushel lower. Duluth sunflower seed was steady. Sunflower oil was up 2 cents per pound at Minneapolis.

INCLUDES SHIPMENTS TO CANADA. YELLOW CORN INCLUDES MIXED CORN.

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS: Feedstuffs and feed grains were slightly higher during the week. Trading was thin with both offerings and demand light. Most of the market strength came from a pick up in export trade. Beef cattle feeding was lighter due to moderate temperatures over most of the country, but colder temperatures and freezing precipitation moved into northern areas at the close of the period. Swine feeding showed steady expansion as feeders are holding breeding gilts as hog markets continue to show good profit margins. Dairy feeding expanded as producers increased feed consumption to increase milk flow as support price level drops.

OILSEEDS: Light domestic demand was offset by an increase in export sales and light supplies. Some processing plants took down time to repair and maintain equipment. Decatur 44 percent meal sold 50 cents higher per ton and 48 percent protein meal closed steady. Other markets ranged \$1.00 lower to \$1.90 per ton higher. Cottonseed meal markets were unchanged in thin trading. Minneapolis linseed meal declined \$3.00 per ton as production increased. Sunflower meal advanced \$5.00 per ton as much of the production was sold for export. Sunflower oil declined 2 1/2 cents per pound under pressure of increased crush.

ANIMAL PROTEINS: Meat meal markets were generally unchanged with offerings and demand light to moderate. Minneapolis tankage advanced \$5.00 per ton. Feather meal traded steady in California but up mostly \$10.00 per ton at midwestern markets. Fish meal supply and demand was light but prices were steady to sharply higher. California fish meal was steady, domestic Menhaden rose \$10.00 per ton at Gulf and East Coast ports and imported Chilean fish meal sold \$5.00 higher at Gulf ports while trading was unchanged at East Coast ports.

CORN FEEDS: Seasonally light production was met by light domestic and export buying interest. Gluten feed was unchanged at Chicago and Kansas City. Chicago 60 percent protein corn gluten meal sold \$5.00 higher per ton as heavy broiler placements increased demand. Illinois yellow hominy feed fell \$2.50 in spite of light production as demand remained light. Brewers' dried grains are in extremely light production and traded steady to mostly higher. Distillers' dried grain production showed little expansion as several plants remain out of production. Demand was lighter but prices were mostly steady.

WHEAT MILLFEEDS: Wheat millfeeds production was moderate in most areas but a pick up in export flour sales increased production in the midwest. Demand was little changed to domestic users but increased export sales tightened supply. Prices were mixed but mostly higher. Buffalo midds sold \$9.00 higher, Minneapolis advanced \$4.00, St. Louis down \$2.00, and Kansas City was \$1.00 higher per ton.

ALFALFA PRODUCTS: Alfalfa trade was light to domestic users but export demand expanded and markets firmed. Platte Valley Nebraska dehydrated alfalfa pellets traded \$2.00 higher per ton. Baled alfalfa hay was steady to \$5.00 higher per ton in the Platte Valley. Los Angeles sun-cured alfalfa meal was up \$3.00 per ton. California dehydrated alfalfa pellets was up \$1.50 per ton.

MOLASSES: Feeding cane molasses markets closed mostly steady, but California ports closed steady to \$4.00 higher. Record warm temperatures along the East Coast and mild weather conditions throughout much of the country tempered feed usage and subsequently molasses demand. Molasses usage was moderate to heavy in Texas, however, as increased numbers of cattle on feed and rising grain prices supported molasses demand. Beet molasses prices were steady in the High Plains and Red River Valley. Citrus cane molasses market not well established. Production is expected to increase next week and come up to full strength around the end of December.

HIGHLIGHTS:

Wheat and feed grain markets moved mostly lower during the week. Export shipments and new export sales activity picked up but countering forces were large world stocks of wheat, rice and feed grains, poor world economy, and improved moisture conditions in most of the U.S. hard red winter area. Unseasonably warm temperatures over much of the country depressed animal requirements and approaching extensive down time at major processing plants further reduced demand for corn, oats and barley. Flour mill grind showed expansion due to export flour business. Flooding restricted grain movement over most of the nation's river system to gulf port. Farmer grain selling remains light to moderate.

WHEAT:

A pick up in flour milling for export and new wheat export sales to various countries including 1.2 million of wheat to Russia failed to overcome market weakness which resulted from large U.S. and world stocks of wheat, and improved moisture conditions over much of the dry U.S. hard red winter wheat area. Kansas City No. 1 hard red winter wheat declined 2 1/4 cents per bushel. St. Louis No. 2 soft red winter declined 13 cents per bushel. Minneapolis dark northern spring 14 percent protein wheat sold 1/2 cent higher due to good mill demand and light farmer selling. Portland soft white wheat traded unchanged.

CORN:

No. 2 yellow corn closed lower in spite of a pick up in export trade and shipments as domestic feeding remained light and flooding restricted grain movement out of the midwest. Kansas City No. 2 yellow corn declined 3 1/2 cents per bushel. The St. Louis market dropped 1-2 cent and Minneapolis was 4 3/4 cents lower per bushel. Kansas City milling quality white corn held steady in dull trade.

OATS AND BARLEY:

Oats traded unchanged at Toledo but dropped 3-9 cents per bushel at Minneapolis. Minneapolis best malting barley ranged 5-10 cents higher per bushel but feed barley was a little lower in dull trade.

SORGHUM:

After Mexico cancelled half of their tender for feed grains, the sorghum market mostly declined. Kansas City was 4 cents lower per hundred pounds. Texas High Plains advanced 5-10 cents but Los Angeles dropped 6 cents per hundred pounds.

OILSEEDS:

Soybeans traded below last week. Slowed crusher demand was the main market influence as other factors were little changed. Illinois processor point declined 7 cents per bushel. Other markets showed a similar trend. Minneapolis flaxseed fell 5 cents per bushel. Duluth sunflower seed fell 20 cents per hundred pounds. Minneapolis sunflower oil dropped sharply, down 5 1/2 cents per pound.

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS:

Feedstuffs and feed grains traded mixed but averaged lower during the week. Most of the grain weakness was in yellow corn which averaged 5 cents per bushel lower. Oats declined 1 cent while barley and grain sorghum closed unchanged. Light domestic demand was offset by good export volume and light supplies of several feedstuffs. Mild temperatures over most of the nation limited animal feed requirements. Best outlets were swine and dairy feeds. Expanding broiler placements were offset by a seasonal decline in turkey feeding.

OILSEEDS:

Soybean meal trade light to domestic outlets but light crush and good export business kept supplies tight. Prices were mixed with the Decatur market \$1.50 lower for 44 percent and 48 percent protein meal. Minneapolis 44 percent meal was \$2.20 lower per ton and Kansas City advanced \$2.20 per ton. California solvent cottonseed meal was \$1.00 higher but Texas mills were \$1.80-2.50 per ton lower and Memphis was unchanged. Minneapolis linseed meal was steady in thin trading. Sunflower meal was \$5.00 lower per ton at Minneapolis. Sunflower oil was 1/4 cent lower per pound.

ANIMAL PROTEINS:

Meat meal markets were generally weaker as demand was light. Fort Worth declined \$5.00, Kansas City was \$2.50 lower, and Minneapolis tankage fell \$7.50 per ton. East and Gulf coast fish meal dropped \$5.00 per ton due to light demand. Feather meal markets were mixed, down \$10.00 to up \$10.00 per ton depending on local supply situation.

CORN FEEDS:

Lower cash corn prices pressured corn feeds but light supplies offset most of the pressure. Illinois yellow hominy feed declined \$4.50 per ton while Kansas City was unchanged. Corn gluten feed and meal were unchanged at Chicago with supplies light and demand good. Brewers' dried grains were extremely tight as production fell behind the already slow schedule. Markets advanced \$2.00 at Boston to \$5.00 higher at St. Louis. Distillers' dried grains were generally contracted for the month, and with production and demand light, markets were mostly steady.

WHEAT MILLFEEDS:

Areas which received export flour contracts increased millfeeds production and demand for range type feeds was light. Wheat middlings traded \$10.00 per ton higher in Buffalo but was \$4.00 lower in Kansas City, \$3.00 lower at Minneapolis, and \$2.00 lower at St. Louis. West Coast markets were mixed, down 50 cents at Los Angeles to up \$2.00 at Portland.

ALFALFA PRODUCTS:

Alfalfa supplies continue to tighten but moderate temperatures lessened demand and markets were mostly steady. Platte Valley of Nebraska dehydrated alfalfa pellets were unchanged. Most reground dehydrated alfalfa meal markets were steady but Buffalo sold \$3.00 per ton higher. Los Angeles sun-cured alfalfa meal was \$1.00 per ton higher. Baled alfalfa hay markets were unchanged with supply and demand light.

MOLASSES:

Feeding cane molasses markets closed steady. Demand improved due to more winterlike weather in the midwest and the first really cold weather on the east coast. Demand continues good in Texas due to an increase in feed mill demand and colder weather. Grinding in Louisiana should be complete in a week to 10 days. Beet molasses markets in Colorado were \$5.00-10.00 lower while other areas in the High Plains remained steady. Red River beet molasses was steady to \$3.00 higher with production on schedule and most movement on previous contracts.

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory list 38 services in 21 states that are currently in operation.

WEEKLY SUMMARY.....	12
FEEDSTUFFS: WHOLESALE PRICES.....	13-14
FEEDSTUFFS: U.S. EXPORTS, OCTOBER 1982.....	15
FEEDSTUFFS: U.S. IMPORTS, OCTOBER 1982.....	15

HIGHLIGHTS:

Wheat and feed grain prices were mixed during the holiday shortened week. Export buying supported winter wheat prices, while approaching holiday reduced grind pressured spring wheat markets. Corn prices were mixed, mostly lower in the central and southern midwest due to continued mild weather and reduced feed requirements. Barge movement to the Gulf is dwindling, with limited traffic south of Central Iowa. High water still hampers eastern tributary river traffic.

WHEAT:

Wheat prices were mixed during the week. Winter wheat prices rose as export buying supported those markets. Soft red winter wheat prices showed the greatest strength, with the hard red winter prices backing off of mid-week highs after a marked increase in country selling. U.S.D.A. released the final 1982 wheat production figures, showing a record 2.81 billion bushels, up fractionally from last year. U.S.D.A. seeding acre report for 1983 winter wheat crop estimates a 5.1 percent reduction in acreage from last year to 63.0 million acres. Kansas City No. 1 hard red winter wheat advanced 1 3/4 cents per bushel. St. Louis soft red winter wheat 6-7 cents higher per bushel. Portland soft white wheat traded unchanged. Minneapolis dark northern spring 14 percent protein wheat fell 1/2 cent as mill buyers were not aggressive due to the approaching holiday sheduled grind down time.

CORN:

Corn prices were mixed, steady to lower across the central and southern midwest and higher along the northern areas of the corn belt. Exporters are mostly on the sidelines. Light farm selling is a supportive factor, but reduced feed needs due to mild weather is pressuring prices in the lower two-thirds of the corn belt. Kansas City No. 2 yellow corn 1 1/4 cents lower per bushel. St. Louis held steady. Minneapolis 2 cents higher per bushel. Kansas City milling quality white corn advanced 5 cents with very few cars trading.

OATS AND BARLEY:

Oats traded unchanged at Toledo and Minneapolis with a continued lack of mill demand. Minneapolis No. 2 heavy oats up 1 cent to down 2 cents per bushel. Toledo oats were steady. Minneapolis best malting barley 5 cents lower per bushel. Prices weakened reflecting the recent 15 cent drop in the six row malt prices. Feed barley declined 5 cents per bushel at Minneapolis.

SORGHUM:

Sorghum prices were mixed. Kansas City market 3 cents higher and Texas High Plains was steady to 5 cents higher per cwt. Los Angeles continued to fall, dropping 2 cents per cwt.

OILSEEDS:

Soybeans traded lower at all reporting stations. Buying was limited to fill nearby requirements, and schedule Holiday crusher down time pressured prices. Illionis processor points 3-4 1/2 cents lower per bushel. Other soybean prices showed a similar down trend. Minneapolis flaxseed 15 cents lower per bushel. Duluth sunflower seed was unchanged. Minneapolis sunflower oil averaged 1/4 cent higher per pound for spot delivery in a very quiet market.

CASH GRAIN BIDS

Dollars per bushels except sorghum and sunflower per cwt.

SOURCE: Bureau of Census

HIGHLIGHTS:

Feedstuffs and feed grains were in mixed trends during the week ended December 21. Pre-Holiday trading and demand very light with most users booking January needs. Mild temperatures across the midwest continued to limit animal feed requirements.

OILSEEDS:

Soybean meal domestic usage very light this week. Supplies were tight with production produced due to light soybean movement from the country. Prices were in mixed trends with the Decatur market \$1.50 higher per ton for 44 percent and \$2.00 higher for 48 percent protein meal. Minneapolis 44 percent meal sold \$2.00 higher per ton but Kansas City market declined 60 cents per ton for 44 percent protein soybean meal. California mills 41 percent solvent cottonseed meal remained unchanged, while Texas mills were unchanged to \$4.00 lower with decline at Fort Worth. The Memphis cottonseed meal solvent also declined \$2.50. Minneapolis linseed meal in thin trading steady. Sunflower meal steady to firm. Sunflower oil averaged 1/4 cent higher per pound.

ANIMAL PROTEINS:

Meat meal markets were generally steady with demand and trading light. Fort Worth market steady, Kansas City also sold steady. However, the Minneapolis tankage declined \$2.50. East and Gulf Coast fish meal rose \$10.00 per ton to light supply and an unsettled market. Feather meal supply improved and markets unchanged to \$5.00 lower.

CORN FEEDS:

Cash corn prices were in mixed trends. Country movement continued light with some price advances in the eastern half of the midwest. Illinois points yellow hominy \$1.00 higher. Kansas City market steady. Corn gluten feed unchanged, while corn gluten meal advanced \$5.00 reflecting continued light production. Brewers' dried grains production continued light, strengthening demand. Markets were unchanged at Boston but \$7.00 higher at St. Louis. Distillers' dried grains were unchanged to \$3.00 higher.

WHEAT MILLFEEDS:

Flour mill grind continued at heavy pace. Combined with moderate temperatures across the midwest and reduced feeder demand, prices declined sharply. Wheat midds at Buffalo were unchanged but fell \$7.00 at Kansas City, \$4.00 at Minneapolis, and \$8.00 at St. Louis. West Coast millrun markets mixed, unchanged to \$5.00 lower at Los Angeles and \$1.50 higher at Portland.

ALFALFA PRODUCTS:

Trading very quiet, supply moderate and demand light as mild weather continued across the midwest. Platte Valley of Nebraska dehydrated alfalfa pellets sold \$1.00 lower per ton. Reground dehydrated alfalfa meal markets were unchanged to \$1.00 lower with Kansas City and Buffalo showing the decline. Los Angeles sun-cured alfalfa meal declined \$1.00 per ton. Baled alfalfa hay markets unchanged with supply and demand light.

MOLASSES:

Feeding cane molasses markets closed steady with a firm undertone. Demand continued light to moderate with the exception of Texas where volume movement remained good. Lack of sustained cold weather throughout the country tempered feed usage and molasses demand. Current supplies remained ample for trade requirements. Beet molasses markets steady in the High Plains and Red River Valley. Deliveries on earlier contracts moved at a steady pace. Citrus molasses markets closed \$7.00-8.00 higher.

HIGHLIGHTS:

Holidays, wintry weather, and flooding combined to reduce trading over much of the country. Barge traffic on the rivers leading to Gulf ports was limited by high water levels and flooding. A winter storm dumped rain, freezing rain, and snow over large areas including much of the dry hard red winter wheat area.

WHEAT:

Wheat markets finished mixed as farmer selling remains well regulated, inspected shipments for export fell below trade expectations, and new sales of 975,000 tons of wheat to Russia was announced. Two holiday shortened weeks reduced flour grind. Kansas City hard red winter ordinary protein wheat finished 2 cents higher per bushel. St. Louis soft red winter wheat traded 3-5 cents higher per bushel. Minneapolis dark northern spring 14 percent protein wheat fell 3 3/4 cents per bushel. Portland soft white wheat sold 2 cents higher per bushel.

CORN:

Yellow corn traded mixed as winter weather interrupted trade over large areas. Kansas City No. 2 yellow corn was up 3 1/2 cents per bushel. St. Louis was steady. Kansas City milling quality white corn held unchanged in light trading.

OATS AND BARLEY:

Trade was slow and prices were mixed. Minneapolis best malting barley was steady. Feed barley steady at Minneapolis, but 2-3 cents lower at Los Angeles.

SORGHUM:

Sorghum trade was slow but markets were supported by a pick up in domestic and export bidding to pull stocks out of farm storage. Kansas City advanced 7 cents per hundred pounds. Texas High Plains market were up 5 cents per hundred weight.

OILSEEDS:

Light demand was offset by tight farmer holding and disrupted transportation from snow, freezing rain, and high water on the river system to Gulf ports. Illinois processor prices rose 1/4 - 1 cent per bushel. Minneapolis was 1/2 cent lower and Kansas City was down 2 1/4 cents per bushel. Minneapolis flaxseed was unchanged in very light trading. Duluth sunflower seed was steady. Minneapolis sunflower oil was 1/4 - 1/2 cent lower per pound.

HIGHLIGHTS:

Feedstuffs and feed grains traded mixed during the week. Holidays shortened plant run time. Rain turning to freezing rain, and snow over western and northern areas curtailed farming and livestock operations and paralyzed traffic over wide areas. Rivers leading to the Gulf rose to flood stages and curtailed export barge movement. Cattle were caught in open areas by the snow and cold temperatures and required supplemental feeding. Turkey feeding continued to decline seasonally but swine feeding showed gradual expansion. Dairy feeding continued at a normal pace.

OILSEED MEAL:

Light domestic and export feed demand coupled with tight soybean holding at the farm level reduced processor run time and soybean meal was in light supply. Decatur 44 percent sold \$1.50 higher but 48 percent protein meal was 50 cents lower per ton. Kansas City sold \$5.10 per ton higher due to tight supply and a pick up in feedlot movement. Cottonseed meal markets were unchanged in thin trading.

ANIMAL PROTEINS:

Meat meal was mostly steady in light trading. Slaughter was curtailed by holiday down time winter storms disrupting operations in much of the midwest. Fish meal was steady on the West Coast but Menhaden meal at Gulf and East Coast ports was \$5.00 per ton lower due to light usage.

CORN FEEDS:

Corn feeds were in extremely light supply as production was seasonally slow and although demand is light, users scrambled to find the few cars offered. Illinois yellow hominy feed was unchanged and Kansas City sold \$1.00 higher per ton. Corn gluten feed was nearly unavailable with practically all production slated for export and prices were steady at Chicago to up \$5.00 at Kansas City. Corn gluten 60 percent protein meal is in extremely light supply and poultry users paid premiums to obtain supplies. Chicago sold \$15.00 higher per ton. Distillers' dried grains very tight and steady to \$5.00 per ton higher. Brewers' dried grains a little more available but the market was mixed, up \$1.00 at Milwaukee to \$1.00 lower per ton at St. Louis.

WHEAT MILLFEEDS:

Holidays reduced flour grind somewhat but heavy export flour business is expected to keep flour grind heavy during the first half of January and this weighed against the market. Buffalo middlings unchanged, Fort Worth up \$4.00 and Portland millrun down \$3.00 per ton. St. Louis and Kansas City midds were up \$2.00-3.00 per ton.

ALFALFA PRODUCTS:

Alfalfa markets turned active in the midwest where cattle were caught in open areas by the first lasting winter weather but other areas showed little market change. Alfalfa center of Nebraska dehydrated alfalfa pellets were up \$1.00 per ton, Kansas City reground dehydrated alfalfa meal was up \$1.00, and Buffalo sold \$4.00 higher per ton. Sun-cured alfalfa markets were steady in slow trade.

MOLASSES:

Feeding cane molasses markets were unchanged except in California where the market sold \$3.00 higher per ton.
